## SUBJECT INDEX

Academics, *see* Education

Addiction

to psychoactive drugs, feelings of relation in the fringe of consciousness, implications for nurse-client relationship, 237-244

Addiction education

effect on attitudes of nursing students toward persons with alcohol problems, 156-164

Advanced practice psychiatric nurses

certified psychiatric-mental health nurse practitioners, 77-87

ANCC examinations for, 82-83

blended role of, 83-84

educational preparation for, 79-80

historical context, 78-79

seeds of controversy in, 84-85

varieties of, 80-82

prescribing practices of, compared with psychiatrists, 101-107

African Americans

factors enabling use of mental health services among, 197-204

rural women, alcohol and other drug disorders, comorbidity, and violence in, compared with Caucasian women, 249-258

spirituality among women recovering from substance abuse, 173-185

Aggression

evaluation of four programs for management of in psychiatric settings, 146-155

Alcohol abuse

and other drug disorders, comorbidity, and violence in rural African American compared with Caucasian women, 249-258

effect of addiction education for nursing students on attitudes toward persons with alcohol problems, 156-164

vulnerability of rural women to disorders of, 33-41

Alzheimer's disease

loneliness and depression in spousal caregivers of those with, 135-143

American Nurses Credentialing Center

role in certification of psychiatric nurse practitioners, 77-87

Anger-control program

for patients with schizophrenia, 88-95

Anorexia

reconceptualizing causative factors and intervention strategies in 57-66

Antianxiety medications

prescribing practices of advanced practice psychiatric nurses compared with psychiatrists, 105

Antidepressant medications

for postpartum depression, role functioning and symptom remission after treatment, 276-283

prescribing practices of advanced practice psychiatric nurses compared with psychiatrists, 105

Antipsychotic medications

prescribing practices of advanced practice psychiatric nurses compared with psychiatrists, 101-107

Assertive skills

training in, for patients with schizophrenia, 228-236

Attitudes

of postgraduate psychiatric nursing students, role of consumer academic in education of, 67-76

Behavioral therapy

dialectical, for suicidal and deliberate self-harming patients with borderline personality disorder, 218-227

Bipolar disorder

effects of patient education in lithium therapy on quality of life and compliance, 270-275

Birth perception

traumatizing provider interactions in childbearing experience, healing through short-term group therapy, 259-269

Body image disturbances

in eating disorders, reconceptualizing causative factors and intervention strategies in 57-66

Body-focused lay theory

understanding proneness to medication nonadherence in schizophrenia, 111

Borderline personality disorder

dialectical behavioral therapy for suicidal and deliberate self-harming patients with, 218-227

Bulimia

reconceptualizing causative factors and intervention strategies in 57-66

Burden, subjective

of parents of patients with schizophrenia, 126-134

Care-giving spouses

of Alzheimer's disease patients, loneliness and depression in, 135-143

Certified psychiatric nurse practitioners, 77-87

Childbirth

healing traumatizing provider interactions through short-term group therapy, 259-269

Children

loss of, by rural women with severe and persistent mental illness, 27-32

Compliance

effects of patient education in lithium therapy on quality of life and, 270-275

understanding proneness to medication nonadherence in schizophrenia, 108-116

Computers

applications in mental health care, 21

*see also* Telehealth, 21

Conflict, intractable

mindfulness as means of overcoming, 186-193

Consciousness, fringe of

feelings of relation in the, in abusers of psychoactive drugs, implications for nurse-client relationship, 237-244

Consumers, of mental health care

perspectives on quality of inpatient mental health services, 205-207

role of consumer academic in education of postgraduate psychiatric nursing students, 67-76

Continuity of care

role of telehealth in, in rural areas, 23

- Conversational skills  
training in, for patients with schizophrenia, 228-236
- Culturally congruent treatment  
for depression in women in the rural South, 3-11
- Deliberate self-harming patients  
with borderline personality disorder, dialectical behavioral therapy for, 218-227
- Depression  
in spousal caregivers of those with Alzheimer's disease, 135-143  
in women in the rural South, 3-11  
postpartum, role functioning and symptom remission after antidepressant treatment, 276-283
- Dialectical behavioral therapy  
for suicidal and deliberate self-harming patients with borderline personality disorder, 218-227
